WHO: Congressman Charlie Wilson

WHAT: Press Conference to discuss high gas prices and the Congressman's support of oil drilling and his concern about the serious lack of government oversight. Congress is set to tackle an Energy Package the week of June 23 including a "use it or lose it" bill that would force oil companies to drill the on the federal land they're currently leasing and a bill that would shine light on the completely unregulated dark markets where much of our oil is traded.
